

I will say this another way until you the reader, if you're lucky enough to be reading this right now, will understand. The "New" Age Mother Earth loons in the (ROCKEFELLER funded) eco wacko movement have assumed God's most precious creature on earth, people, are the cause of everything killing our earth mother and then go from there. Any 'abnormalities' in nature, as if nature is ever 'normal', are blamed on man. This is the **anti-Scientific Method**: Assume something (mankind is the cause of all nature's ills) and if your models don't agree as it's kind of hard to associate snow in Malibu, Las Vegas and New Orleans to "warming" simply change the name to 'climate change'. And then churn ahead with new theories, explanations, carbon credit scams, worldwide socialism, etc. etc. Keep in mind Al private jet flying Gore's great computer models that put the local weatherman to shame are surprise, surprise a sham. At least it would seem that way as they were predicting massive hurricane seasons (which hasn't happened) while predicting global temperatures years out when the local weather man can't even get things correct over a few square miles one week out. And please remember as I stated in the link Beware the environmental movement, beware the environmental movement on the New Age page there definitely ARE environmental issues like wetlands destruction, solid waste disposal, water treatment, etc. that can be solved with technology and innovation from free, capitalistic societies. Capitalism and humanity itself (umm that includes you the reader), NOT environmental destruction, IS the enemy to these Mother Earth loons, kooks and crackpots. End of story.

Scientists abandon global warming 'lie': 650 dissent at U.N. climate change conference (WorldNetDaily.com, December 11, 2008)

Notice the term "climate change" conference. When I discussed the global warming (climate change?) scam in "The THEorY of LIVEvolution" the number jumping off the sinking ship of the UN-dead's Inter-galactic panel of cosmic clowns (IPCC) was around 400; now it appears to be 650 only around 6 months later. Hmm there seems to be a pattern here. Look up the article yourselves and read it as well as some of the related stories listed at the end. For INCONVENIENT TRUTH I have included a sampling of what REAL SCIENTISTS have to say about high priest Al I buy carbon credits from my own company Gore and his minions:

I'm a skeptic...Global warming has become a new religion – Nobel Prize Winner for Physics, Ivar Giaver

Religion huh? You don't say. Hmmm. Here's one by an "award winning PhD environmental physical chemist"(someone with higher grades than yours truly):

Warming fears are the worst scientific scandal in the history...When people come to know what the truth is, they will feel deceived by science and scientists" U.N. IPCC Japanese Scientist Dr. Kiminori Ithoh

Hmmm. I always suspected Al Gore's great computer models were a sham...before copious scientists like the following affirmed my supposition:

The models and forecasts of UN IPCC “are incorrect because they only are based on mathematical models and presented results at scenarios that do not include, for example, solar activity. Victor Manuel Velasco Herrera, researcher at the Institute of Geophysics of the National Autonomous University of Mexico

That’s solar activity as in THE SUN. Funny these “New” Age loons don’t account for it where it is needed but don’t seem to forget when it appears at the “sun center” of the “Circle of the Zodiac”.

So why would people jump on with this sham? It’s called the Almighty Dollar (or “Federal” “Reserve” Note):

The (global warming) scaremongering has its justification in the fact that it is something that generates funds. Award winning Paleontologist Dr. Eduardo Tonni of the Committee for Scientific Research in Buenos Aires and head of Paleontology Department at the University of La Plata.

Notice that this cross section of scientists transcends both national boundaries and areas of expertise.

Think real hard about this next one (or the entire eco wacko movement for that matter) when say Al ‘I buy carbon credits from my own company’ Gore tells us evil Americans we need to reduce our carbon footprint. Or perhaps when the thug IRS puts a lien on your paycheck for not paying Messiah Obama’s impending “carbon tax” when the gang bankers just took 700 billion with a “B” with absolutely no oversight or nay a word from our “useless officials”.

Five-Star Green Hypocrisy (prisonplanet.com, October 12, 2008)

Move Al Gore. Swankier carbon charlatanism has come to town in the form of the World Wildlife Fund’s luxury getaway called “Around the World: A Private Jet Expedition”.

For a price tag that starts at \$64,950 per person, travelers will meet at the Ritz Carlton in Orlando, Fla on April 6, 2009 and then fly to “remote corners” of the world on a “specially fitted jet that carries just 88 passengers in business-class comfort.”

The WWF laments on its web site that the average American produces 19.6 tons of CO₂ annually, which is nearly five times the world average of 3.9 tons per person. But during the WWF’s posh excursion, travelers will produce 14 tons of CO₂ per person,. That’s 71 percent of the average American carbon footprint and 360 percent of the average global footprint in a mere three-and-one-half weeks.

We, the masses, should, -nay, must- use compact fluorescent light bulbs, reduce water use, turn thermostats down in the winter and up in the summer and use low-

flow shower heads and faucets. We should pledge to commute by car pool or mass transit....

Maybe, you're thinking, the WWF plans to make its trip "carbon neutral" by purchasing carbon offsets, after all, the group does offer a carbon offset calculator on its web site...But neither the trip brochure nor the WWF web site mentions that any offsets will be purchased- and there seems to be good reason for that.

According to WWF's calculator, it would cost in excess of \$44,000 to offset the carbon emissions from the jet travel alone...Former Clinton official Joseph Romm wrote on his blog that "the vast majority of offsets are, at some level, just rip-offsets."

The Greens are apparently reluctant to fall for their own scams.

If you can't make the WWF's private jet expedition, the group offers a wide variety of other pricey, carbon spewing tours...

Etc., etc. Al Gore and his panel of cosmic clowns better re-calibrate their "warming" models in (sun)light, pun intended, of the following by ex-marine Phil Brennan:

Global Cooling Headed Our Way (Newsmax.com, January 13, 2009)

Excuse while I gloat, but it's fun to say I told you so.

Americans are surprised to learn that President-elect Obama's choice to be his global warming czar, one Carol Browner, was listed as one of 14 leaders of a socialist group's Commission for a Sustainable World Society, which calls for "global governance" and says rich countries must shrink their economies to address climate change...

Environmentalism, in short is the last refuge of socialism. It is no accident that one of those in the forefront of the global warming alarmists is one Michael Gorbachev, an unrepentant socialist who appears to believe if you can't lick em one way find another...

Now comes Gregory F.Fegel writing in Pravda Ru that we are on the brink of a new ice age...

This article just came out on January 13. This "conspiracy theorist" put out pictures of one (ex KGB director and COMMUNIST dictator) Mikhail Gorbachev from UN-dead Kosmos Magazine on this very web site (see bottom of New Age page) several months ago. One world order? Global governance? That's just silly "conspiracy theory". And the Bible with things like the Battle of Gog and Magog, whom most identify with Mother Russia, why that's just a bunch of allegories and nice bed time stories...

Obama Climate Czarina Was Member of Socialist Group's Environmental Commission: Carol Browner, President-elect Barack Obama's choice to be climate czarina, served until last summer as a member of a socialist group whose mission is to enact progressive government policies, including toward environmental concerns like climate change (FOXnews.com, January 14, 2009)

Carol Browner, President-elect Obama's choice to be the climate czarina, served until last summer as a member of a socialist organization whose mission is to enact progressive government policies, including toward environmental concerns like climate change.

Browners name and biography have been scrubbed for the Web site of Socialist International...

I don't know why these people are trying to hide anything; no one dare question "The Messiah". Anyway here's a photo that shows Ms. Browner talking before the group, just in case you were wondering.

FOX sNEWS actually reports something of relevance...but then it also gives equal time to American Idol results. Anyway, the term "progressive" turned up in the 2008 "Presidential" debates sometime around when Hillary was calling "The Messiah" a "slum lord" and "too inexperienced" as she didn't want to call herself "liberal" due to its negative connotations. So now she calls herself a "Progressive". This name popped in the Reece Commission Report as the result of the great Joe McCarthy. "Progressive Education" magazine was a major supporter of the ROCKEFELLER/Dewey humanistic/God eliminating takeover of the public re-education system and one of the names that popped up is one Norman Thomas, one of the founders of the COMMUNIST ACLU and Socialist candidate for "President" in the forties and fifties. The original "Progressives" of the early twentieth century counted as one of their planks the eugenics movement whose original goal was the elimination of the undesirables not the least of which were blacks which in turn leads into our next series of articles...

This “conspiracy theorist” (along with non-sedated other members of the “imbecile majority”) has been screaming from the rooftops about this insanity. We have a guy who the banksta owned lap dog press claims to be “our first black president” (when he only 50% qualifies to begin with as his mother was white) yet supports the most racist institution ever, abortion. Margret Sanger, its 100% white founder, served as one of the primary inspirations to Adolf Hitler and her stated purpose was to eliminate “human weeds”, that consisted mostly of the black population. A large part of the funding for Ms. Sanger and the entire Hitler inspiring American eugenics research monster for that matter was none other than...the ROCKEFELLER family.

Let’s check out a few. A “good” place to start would be with our new “friends” the Chinese. The Chinese who, when they’re not funding “our” Federal Government’s insatiable appetite to waste money, are poisoning our pet dogs, providing us with “bad medicine” and fake UL listed extension cords, like to employ something called “forced sterilization”. Now to me, your average “conspiracy theorist”, this sounds like the Chinese government is ripping the uteruses out of many a young Chinese woman. You mean “The One” would support such a thing? Didn’t two million zombies umm supporters along with our lap dog banksta owned press just anoint him “The One”?

Congresswoman Confident Obama will Fund UNFPA, Which Supports China’s Coercive Abortion Program (CNSNews.com, November 13, 2008)

(CNSNews.com) – Rep. Carolyn Maloney (D-NY) said she is confident that President-elect Barack Obama will reverse the Bush administration’s decision six years ago to stop the \$40 million in annual funding to the United Nations Population Fund (UNFPA) because of its support of China’s one-child policy – a policy that includes coercive abortion.

The UN report, entitled “Reaching Common Ground: Culture, Gender and Human Rights”, “calls for culturally sensitive development because they are essential human rights in general, and womens’ rights in particular”

America will no longer “impose our own ideology” around the world under Obama’s leadership, she added.

“...his administration will change the way we do business in Washington...and that improving the role of women around the world is going to be one of his prominent priorities.”

According to the most recent U.S. State Department report on human rights in China: “The government continued its coercive birth limitation policy, in some cases resulting in forced abortion and sterilization”.

And guess who is behind the original founding of the so-called United Nations Population Fund in 1968? TA DA...Stephen ROCKEFELLER.

Here's a good one for the Brzezinski/Rockefeller Manchurian candidate ummm "The Messiah" who voted AGAINST something called "Born Alive Infant Abortion Protection Act" while in the Illinois State Senate. (This is one of the only things we know about his past since all of his records even his birth certificate have been sealed.) As this act came up in "The THEorY of LIVEvolution" this "conspiracy theorist" asks, aside from that title what more needs to be said? What more CAN be said?

Obama's First Act: Taxpayer Money to Fund Abortions of Black Babies (Infowars.com, January 21, 2009)

Among the groups receiving funding from "The One" besides the aforementioned Chinese are "The Family Guidance Association of Ethiopia" and "Planned Parenthood Association of Zambia". So yes our first (half-white) "black President" is "spreading the wealth around" to poor black African nations so they can employ the mega-racist Margret Sanger's (and ROCKEFELLER) practice to eliminate "human weeds". What more needs to be said? What more CAN be said?

The following should answer many questions. That is just in case you were wondering if our newly elected "citizen of the world" planned on putting any limits on exporting the Hitler inspiring, Sanger/ROCKEFELLER black "human weed" limiting practices of the American Birth Control League (the forerunner to Planned Parenthood) to that same world:

President Obama to Overturn Ban on Funding International Family Planning Groups That Provide Abortion (ABCnews.com January 23, 2009)

Speaking of mindless minions of zombie followers the following should shivers down the spines of all not yet sedated by "The One":

Obama's Mass Movement Gets a New Mission (Infowars.com, January 17, 2009)

The Marxist Leon Trotsky understood this. Speaking of German and Italian fascism, Trotsky said fascism requires "a great deal of socialist demagogy. This is necessary for the creation of the mass movement. The genuine basis (for fascism) is the petty bourgeoisie. In Italy, it has a very large base — the petty bourgeoisie of the towns and cities, and the peasantry. In Germany, likewise, there is a large base for fascism." Mussolini's fascist mass movement did not consist primarily of "petty bourgeoisie" followers as Trotsky seems to indicate, but had a large number of more affluent middle and upper class followers as well, an important and indeed required element due to the fact fascism is not a truly revolutionary ideology but one that preserves the socioeconomic status quo at all costs under the cover of revolution. As the communist political theorist Antonio Gramsci correctly noted, fascism represents the "Caesarism" of the ruling elite. (It should be noted that Gramsci was arrested by Mussolini and interned at Regina Coeli, the famous Roman prison.)

Speaking of “petty bourgeoisie” this term appears in establishment historian (Bill Clinton hero) Carroll Quigley’s “Tragedy and Hope” as documented in “The THEorY of LIVEvolution”. How about that, a hypocritical elitist ex-“President” (not to mention his lovely wife) looking down on us “pilgrims” in the “petty bourgeoisie”.

What the hell, pun intended, did “we the people” just elect as “President” or more aptly sock puppet of the gang bankers?

For starters not only are his academic records sealed from ALL his college days (including the ones he spent with ROCKEFELLER lackey and current “advisor” Zbigniew Brzezinski at gang banker re-education central, Columbia University) even his HIGH SCHOOL records are off limits according to some. His Illinois State Senate records are sealed according to JudicialWatch.org who has been trying to get at them for months now (early 2009). We STILL don’t even know where this guy was born and according to worldnetdaily.com he apparently didn’t even author his own book, “Dreams of My Father”.

Newly found article confirms Obama ‘Dreams’ fraud Exclusvie: Jack Cashill quotes from 1983 column in which ‘every sentence clunks’
(Worldnetdaily.com, January 15, 2009)

It should put an end to the charade that Barack Obama wrote his 1995 memoir “Dreams of My Father” unaided, but it probably won’t. The literary left has committed itself to Obama’s genius.

Again this “conspiracy theorist” has to ask, “who the hell, pun intended, IS this guy”?

Finally, “the One” mentioned that “We will restore science to its rightful place...” in his “historic” inauguration speech. I wonder if he means that we’ll finally open up the sham science of “The THEorY of LIVEvolution” to real debate and not something for the COMMUNIST ACLU to **separate** us from our true Godly roots. The following article from the London Telegraph would indicate that we should:

Charles Darwin’s tree of life is ‘wrong and misleading’, claim scientists
(telegraph.co.uk, January 22, 2009)

In Darwin’s The Origin of Species, published in 1859, the British naturalist drew a diagram of an oak to depict how one species can evolve into many.

Researchers say although for much of the past 150 years biology has largely concerned itself with filling in the details of the tree it is now obsolete and needs to be discarded.

What the hell, pun intended, is this, “The Twilight Zone”? The COMMUNIST ACLU says we can’t even QUESTION the farcical THEorY of LIVEvolution or we’re guilty of

“separation of church and state”, a blatant scam itself. Please be aware that the REAL THEorY of LIVEvolution is about things like thinning out the herd or “the human weeds” and Hitler’s “race hygiene”. Those that support the REAL “evolution” like Freemason historian Manly Hall and (another) Adolf Hitler inspiration Helena Blavatsky laugh at the idiots that think “evolution” is about “science”. This was thoroughly documented in “The THEorY of LIVEvolution” and will be covered again in the related links page from Mystery, Babylon, USA. But I digress.

How many times did this “conspiracy theorist” evoke the name “Adolf Hitler” AND Rockefeller?

Is ALL of this silly “conspiracy theory”? I just reported, YOU decide.
