

We're at week 4 of "The Messiah" and we can break down this week's news stories into:

1. The "Late Great USA" does its best Alamo Rendition
2. Who *IS* this guy?
3. WATCH OUT FOR THIS GUY

#### **4. THEM?**

##### **1. The "Late Great USA" does its best Alamo Rendition**

On the new age page I developed my "Circle of Life" that depicts in Alamo like fashion the current status of the "The Late Great USA". A few of those items included the COMMUNIST ACLU's contribution to our downfall, the illegal immigration mess and the "religion of peace" that wants us (and for that matter the whole world) Muslim or dead. Of course we all know "The One's" first acts was to free the terrorists at Gitmo and get on Arab television apologizing for American and we want to be your friends speech. Now this isn't to say that we should be carpet bombing all Muslim countries but there is definitely a sizable percentage that would do just that or worse if given the chance...and it seems they're at least training for it...here:

**35 jihad training compounds on American soil** (Christian Action Network, February 16, 2009)

"Act like you are his friend. Then kill him". – Sheik Muburak Gilani explaining how to kill American infidels.

Washington DC – The American public was never supposed to know. The 2006 Justice Department document that exposes 35 terrorist training compounds in the U.S. was marked "Dissemination Restricted to Law Enforcement". All of the copies of Sheik Muburak Gilani's terrorist training video, "Soldiers of Allah", had been confiscated and sealed – all of them that is, except one – that Christian Action Network now reveals in the documentary Homegrown Jihad: The Terrorist Camps Around the U.S.

It seems unfathomable – nearly three dozen terrorist training compounds in the U.S. and the FBI, Homeland Security, and State Department are no help at all? But the evidence is irrefutable...

Another group in the "Circle of Life" was the C-O-M-M-U-N-I-S-T ACLU. It was started by a bunch of commies including Roger Nash Baldwin, who in his yearbook at Harvard excuse me Harrrvaaard, stated "...communism is the goal". Another was ex socialist presidential candidate Norman Thomas who was documented in "The THEorY of LIVEvolution" as being ecstatic over FDR's Raw a-hem New Deal and "The Late Greate USA's" march to socialism overall. So besides pornographers, illegal homosexual movement power grabs, eugenics a la "legalized" abortion, and the totally fake "separation of church and state" crowd who are these nefarious scumbags

defending? Why not Wal Mart's source of slave labor that does the "jobs Americans won't do"?

**The ACLU sued my district attorney & sheriff: Battle erupts after cops investigate illegal alien tax fraud (worldnetdaily.com 2/10/09)**

After authorities investigated thousands of tax files for bogus Social Security numbers used by illegals to steal refunds, the ACLU responded with a class-action lawsuit – but now a Colorado district attorney is fighting back.

Authorities considered the operation a huge success – and then the ACLU stepped in with a class-action lawsuit, alleging the campaign violated privacy laws.

"It doesn't surprise me that the ACLU is taking the side of illegal immigrants over the side of U.S. citizens who have become victims of identity theft," District Attorney Ken Buck told the Greeley Tribune.

And of course we have the Chinese, Russians and their new pals the Iranians who would love to see Little Satan (Israel) and if there's a "little" Satan than of course "big" Satan (the Late Great USA) can't be far behind on the wish list. And who's buddies with all these guys? Right Hugo Chavez of Venezuela who was rumored to be helping Iranian and other shady Middle Eastern "illegal immigrants" enter the "Late Great USA" to "do the jobs Americans won't do" like blowing up bridges and shopping malls.

**Venezuela's Chavez: Bigger threat to the U.S. than Osama? Authors of new book say Venezuelan dictator has desire, power to bring America to its knees (worldnetdaily.com 2/10/09)**

WASHINGTON – Authors of a new book who were sympathetic to Hugo Chavez's 1998 presidential bid to "eradicate poverty" in Venezuela now say he is a greater threat to America's national security than Osama bin Laden and has the means and motive to bring the U.S. to its knees.

In "[The Threat Closer to Home: Hugo Chavez and the War Against America.](#)" Douglas E. Schoen and Michael Rowan say the U.S. is oblivious to Chavez's intentions to use oil as an asymmetric weapon of war, as well as terrorism, in attacks that could rival 9/11 in their impact on the economy and infrastructure of the nation.

Chavez has used Venezuela's vast oil resources to support the government of Iran – and specifically its nuclear ambitions, they say. He also has permitted the largest jihadist terror organization in the world, Hezbollah, to maintain permanent bases in Latin America and recruit Venezuelans.

## 2. Who *IS* this guy?

It may be beating a dead horse on this web site (see previous weeks' relevant news stories) but this issue simply won't go away.

**Eligibility issue: McCain checked but not Obama: Lawsuit contends Congress failed to qualify Democrat for Oval Office** (worldnetdaily.com 2/11/09)

A lawsuit that accuses Congress of failing to investigate President Obama's birthplace before approving the Electoral College vote giving him the presidency has been amended to include additional claims of rights violations, including unequal treatment, because Congress did such an investigation into GOP candidate Sen. John McCain.

That word comes from Mario Apuzzo, the lawyer handling the case on which WND previously has reported.

The case raises many of the same arguments as dozens of other cases that have flooded into courtrooms around the nation since the November election.

The case was brought by Apuzzo on behalf of Charles F. Kerchner Jr., Lowell T. Patterson, Darrell James Lenormand and Donald H. Nelson Jr. It names as defendants Barack Hussein Obama II, the U.S., Congress, the Senate, House of Representatives and former Vice President Dick Cheney along with House Speaker Nancy Pelosi.

Any of you in the “imbecile majority” can simply go to the United States Justice Foundation web site (usjf.net) and view and/or download a copy of one of these lawsuits. It names former presidential candidate and former Republican Alan Keyes as plaintiff against “The One” and the California state electors in the electoral college. Of course the mainstream banksta owned snews, “conservative” FOX sNEWS and “liberal” CNN doesn't deem this too important and this “lack of transparency” will only get worse...

### **News bailouts threaten freedom of press**

**'You can't expect a watchdog to bite the hand that feeds it'**

(worldnetdaily.com 2/11/09)

Floundering media and news conglomerates have expressed interest in accepting government bailout money, leading some to object, arguing that strings attached to federal funds will subvert our nation's freedom of the press.

Brent Bozell, president of the media watchdog organization Media Research Center, contends that if a news company – even one – accepts taxpayer money, it can no longer be trusted to hold government accountable to the people.

"How in the world can [a] paper propose to be a watchdog for the public when it's had conversations about being bankrolled by the government?" Bozell asked in *The Philadelphia Bulletin*.

"When a media outlet proposes a bailout, it proposes to put itself under the authority of the entity bailing it out," Bozell said. "Therefore, if it's a government, the media entity proposes to become an arm of the government."

### 3. WATCH OUT FOR THIS GUY

Banksta owned Snewsweek ummm Newsweek came out with this beauty this past week. Does anyone else in the "imbecile majority" feel like we're being programmed for socialism/communism while we stare right at it and at some point will come "to love" our slavery just like humanistic/weirdo Science "fiction" writer Julian Huxley predicted several decades back?

...Hannity could not have agreed more. "It is ... the European Socialist Act of 2009," the host said, signing off. "We're counting on you to stop it. Thank you, congressman."

There it was, just before the commercial: the S word, a favorite among conservatives since John McCain began using it during the presidential campaign. (Remember Joe the Plumber? Sadly, so do we.) But it seems strangely beside the point. The U.S. government has already—under a conservative Republican administration—effectively nationalized the banking and mortgage industries. That seems a stronger sign of socialism than \$50 million for art. Whether we want to admit it or not—and many, especially Congressman Pence and Hannity, do not—the America of 2009 is moving toward a modern European state.

We remain a center-right nation in many ways—particularly culturally, and our instinct, once the crisis passes, will be to try to revert to a more free-market style of capitalism—but it was, again, under a conservative GOP administration that we enacted the largest expansion of the welfare state in 30 years: prescription drugs for the elderly. People on the right and the left want government to invest in alternative energies in order to break our addiction to foreign oil. And it is unlikely that even the reddest of states will decline federal money for infrastructural improvements.

This "conspiracy theorist" can rip this whole ideology apart but most in the "imbecile majority" will look at yours truly as the "conspiracy kook". But what this does illustrate quite clearly is the Helgian Philosophy. Hegel was a German philosopher around in the late eighteenth century. His mantra was the basically the state is absolute. This is spelled out by "conspiracy theorist" Anthony Sutton:

Probably the most difficult task in this work will be to get across to the reader what is really an elementary observation: that the objective of The Order is neither left or right. Left and right are artificial devices to bring about change,

and the extremes of political left and political right are vital elements in a process of controlled change.

The answer to this seeming political puzzle lies in Hegelian logic. Remember that both Marx and Hitler, the extremes of “left” and “right” presented as textbook enemies, evolved out of the same philosophical system: Hegelianism.

In the Hegelian system conflict is essential. Furthermore, for Hegel and systems based on Hegel, the State is absolute...There was no freedom in Hitler’s Germany, there is no freedom for the individual under Marxism, neither will there be in the New World Order. And if it sounds like George Orwell’s 1984 – it is. (Antony C. Sutton, “America’s Secret Establishment: An Introduction to the Order of Skull and Bones”, (Trine Day Publishing, 1983, 2002) p. 34.

So there it is. “The Order” is none other than “Skull and Bones” discussed at length in the link **322, the Georgia Guidestones and the eco wackos** on the bottom of the new age page. (Keep this thought in mind for a little later). This also explains why this “conspiracy theorist” abhors “conservative” FOX sNEWS and its **Bilderberg** (see link to this Rockefeller run group on the Mystery, Babylon, USA related links page) owner Rupert Murdoch as much as “liberal” CNN and its pro-eugenics owner Ted Turner along with copious other media talking head elitists from “both” sides of the political spectrum. The concept of a fake left/right paradigm as cannon fodder for the “imbecile majority” was discussed at length in “The THEorY of LIVEvolution”:

#### Introduction

The current movement to World Wide Communism is synonymous with “One World Government”. It has been written about by many “conspiracy kooks” and Christian writers alluding to the system described by the Apostle John in the Book of Revelation. My preference is to refer to it as World Wide Communism because this is exactly what it is. Name changes such as Nazism or Facism and even (Godless) Capitalism are really of minor consequence if you’re amongst the proles and chances are if you’re reading this right now, you qualify.

#### j. Our “Free” Press and “Two” Party Sham

Control of information is another pillar those desiring to control all power via an evil Communistic system must have. Enter our “free and independent” press. There are numerous sources that delve into this subject deeply and document the takeover of the press by the real establishment presented in the bibliography. As always, I encourage and invite anyone to check them for confirmation. To be sure don’t forget Carroll Quigley’s say on this subject in “Tragedy and Hope” and those already quoted from Rene A. Wormser’s “Foundations” book that alluded to the widespread influence of the tax exempt foundations including control of the press. But I really don’t have to repeat their work, do I? Look at the steady stream of entertainment laden crap emanating from the boob box. It doesn’t matter which newscast, the “liberal” CNN or more “conservative” FOX sNews, C(ircus)NBC, the New York Slimes or anyone in between. We have already discussed something called the Law of the Sea Treaty, the North American Union and the Fairness Doctrine all being stealthily discussed in Congress and “President” Bush. And don’t forget that economic enslaving Federal Reserve Bank. Never heard of some or all of them, save the “Fed” which is regarded as the great stabilizer of our economy by the “experts”? This isn’t a surprise since most somehow escape the attention of our “free” press. Think this is a joke? Go on CNN.com and do a search for “Law of the Sea Treaty” and you get exactly zero results on their website. Other websites will pop up but none on CNN. Then plug in “Britney Spears” and at least a dozen stories pop up on CNN. In a nutshell, LOST is a proposed treaty by the UN-dead that

will grant it power to essentially govern the entire ocean surface of the world and any inland waters draining into them. Umm this means just about every stream inside the United States. The Senate is debating this very treaty right now (2008) but you have to really dig to track it. There is nothing in the TV or the print media, the so called “mainstream press”. Don’t believe me? Look it up yourself. This alone proves that we are essentially in a news blackout, courtesy of our “free” press. And the fact that so many members of “both” parties are ready to jump into bed with the UN-dead proves the “two” parties differ in name only.

But look at the bolddash this article is spewing. For instance, I don’t think any reasonable person would the government investing in *anything* even “alternative energy”. We can’t even get existing technology like nuclear and hydro power working because of the death grip on “our” economy from Rockefeller’s present day Standard Oil and that family’s (and others like the Carnegie Institute) control of the eco wacko movement. The private sector could provide all this but the (ROCKEFELLER funded) eco wackos and other UN-dead fools fight it all tooth and nail. Not to mention coal and “global warming” thanks to useful eco-idiot Al Gore and friends...

### **US energy chief floats idea of a carbon emissions tax** (rawstory.com, 2/11/09)

WASHINGTON (AFP) – US Energy Secretary Steven Chu has floated the idea of a carbon emissions tax to fight global warming, in an interview with the New York Times Thursday.

During the US presidential campaign, the notion was kept largely on the back burner...

But since Barack Obama’s administration took office in January, Congress has been working on setting up a system for swapping greenhouse gas emissions quotas similar to the one used in the European Union.

### **S 2191: The Carbon Credit Enslavement System** (roguegovernment.com, 11/27/07)

The push towards a global carbon credit mechanism continues to be one of the top agendas of the world elite. Despite the fact that numerous scientific studies have concluded the entire solar system is getting warmer as part of a natural cycle, non-stop propaganda from the major corporate news networks continue to blame man made carbon emissions for planetary warming.

As the European Union pushes the carbon credit scam forward in Europe, the United States is now pushing Senate Bill 2191 which is called America’s Climate Security Act of 2007. The bill originally proposed by Joe Lieberman and co-sponsored by establishment hacks on both sides of the phony left-right paradigm if passed into law will establish a draconian carbon credit system here in the United States that will give the Environmental Protection Agency extraordinary powers over this system. Below is a full analysis of this bill which promotes nothing short of total enslavement.

(See the article for the in depth analysis).

Of course this brings to mind eugenics lovely/kill the “human weeds” (mostly poor blacks)/Adolf Hitler hero Margaret Sanger. Let’s see what “conspiracy theorist” and former welfare mother who lived on “Uncle Sam’s Plantation” (the reality) more commonly known as LBJ’s “Great” Society (the fake one invented by LBJ’s banks masters and perpetuated by ivory tower, liberal mostly white elites and “intellectuals”):

**Moral Crisis is root of economic crisis: Star Parker tells of pastor convicted for offering alternative at abortion clinics (worldnetdaily.com 2/14/09)**

A travesty of justice has occurred in Oakland, Calif. But realities surrounding this local issue point to how the economic crisis in our nation is symptomatic of and flows from a deeper fundamental moral crisis.

A black pastor awaits sentencing, which could amount to two years in prison and \$4,000 in fines, for standing outside an inner-city abortion clinic holding a sign saying "Jesus Loves You & Your Baby, Let Us Help You," and offering pro-life literature.

The "reproductive health care facility" in question is Family Planning Specialists in Oakland. Looking over the facility's website, it's clear that there is only one kind of reproductive health care they provide. Abortions.

Abortion clinics such as Family Planning Specialists strategically locate to optimize their deadly business. This means in poor black neighborhoods.

The poor black kids from the broken families and communities there go to failing public schools in Oakland where half of them drop out.

In these failing public schools, it is prohibited to teach the most important thing that these children could possibly hear. That there are absolutes in this world – that there is right and there is wrong.

As religion and tradition have been purged from public life in America, the most immediate victims have been the weakest and most vulnerable.

The stated purpose of the Oakland ordinance, which may send Walter Hoye to jail, is to protect "right of privacy." "Right of privacy" of teenage girls not old enough to vote, but who can get a state-paid-for abortion without informing a parent.

Yet the First Amendment of our Constitution no longer protects the freedom of a pastor to peaceably stand in front of an abortion clinic and tell these lost young women there is another way.

Something is wrong in America today. Very, very wrong.

Speaking of eugenics here's some "goodies" from Margaret Sanger, hero to Adolf Hitler, Hillary Clinton and we must believe based on his vote AGAINST something called "Born Alive Infant Abortion Protection Act", our "first black president", Barak Hussein Obama

(from infowars.com, Eugenics Quotes: From lofty ideals to centralized population control and mass death, 9/5/08):

In "The THEorY of LIVEvolution" I documented the common occult roots of the REAL deal with evolution and the Mother Earth/eco wacko loons which should make the

following few quotes more than disturbing when juxtaposed on the current shenanigans by “The One” and his criminal masters:

"Eugenics is the study of the agencies under social control that may improve or impair the racial qualities of future generations either physically or mentally."  
- **Francis Galton, first cousin and associate of Charles Darwin, circa 1883**

"What nature does blindly, slowly and ruthlessly, man may do providently, quickly, and kindly. As it lies within his power, so it becomes his duty to work in that direction."  
- **Sir Francis Galton (1905)**

"Galton's eccentric, sceptical, observing, flashing, cavalry-leader type of mind led him eventually to become the founder of the most important, significant and, I would add, genuine branch of sociology which exists, namely eugenics."  
**John Maynard Keynes. Eugenics Review. 1946**

"The first century or two of the new millennium will almost certainly be a golden age for Eugenics. Through application of new genetic knowledge and reproductive technologies...the major change will be to mankind itself...[T]echniques...such as...genetic manipulations are not yet efficient enough to be unquestionably suitable in therapeutic and eugenic application for humans. But with the pace of research it is surely only a matter of time, and a short time at that."  
- **Gladye Whitney, Reproduction Technology for a New Eugenics, paper for The Galton Institute conference Man and Society in the New Millennium, September 1999**

"There is NO DENYING the natural world would be a better place without people - ALL people! Not a selective bunch. Get it straight."  
-**Rebecca Calisi, student of Eric Pianka**

"In order to stabilize world population, we must eliminate 350,000 people per day. It is a horrible thing to say, but it is just as bad not to say it."  
- **Jacques Cousteau, 1991 UNESCO courier**

Of course getting rid of some of the elderly and other “inconveniences” may not be that far off when Government owned health care becomes “free” as the “conspiracy theorists” at Bloomberg News lament:

Ruin Your Health With the Obama Stimulus Plan: Betsy McCaughey

Feb. 9 (Bloomberg) -- Republican Senators are questioning whether President Barack Obama's stimulus bill contains the right mix of tax breaks and cash infusions to jump-start the economy.

Tragically, no one from either party is objecting to the health provisions slipped in without discussion. These provisions reflect the handiwork of Tom Daschle, until recently the nominee to head the Health and Human Services Department. Senators should read these provisions and vote against them because they are dangerous to your health. (Page numbers refer to H.R. 1 EH, pdf version). The bill's health rules will affect "every individual in the United States" (445, 454, 479).

Your medical treatments will be tracked electronically by a federal system.

But the bill goes further. One new bureaucracy, the National Coordinator of Health Information Technology, will monitor treatments to make sure your doctor is doing what the federal government deems appropriate and cost effective. The goal is to reduce costs and "guide" your doctor's decisions (442, 446).

Hospitals and doctors that are not "meaningful users" of the new system will face penalties. "Meaningful user" isn't defined in the bill. That will be left to the HHS secretary, who will be empowered to impose "more stringent measures of meaningful use over time" (511, 518, 540-541)

#### Elderly Hardest Hit

Daschle says health-care reform "will not be pain free." Seniors should be more accepting of the conditions that come with age instead of treating them. That means the elderly will bear the brunt.

Medicare now pays for treatments deemed safe and effective. The stimulus bill would change that and apply a cost- effectiveness standard set by the Federal Council (464).

On Friday, President Obama called it "inexcusable and irresponsible" for senators to delay passing the stimulus bill. In truth, this bill needs more scrutiny.

This stimulus is dangerous to your health and the economy.

Of course this "bailout" had to be passed so quickly it couldn't even make the five day review period for "more transparency" promised by candidate Obama. Maybe there's more than "just" the Orwellian concept of a "Federal Council" to determine the "meaningful users" of the "free" Government health care system:

#### **Obama's Change: Expanding the Power of the NSC and Shadow Government** (infowars.com, 2/8/09)

So dangerous is the world now, according to the argument offered by Jones, the NSC will apparently encompass "the Energy Department, Commerce Department and Treasury, all the law enforcement agencies, the Drug Enforcement

Administration, all of those things.” After Obama issues his directive, the NSC will strive to “embrace a broader membership” and roll these government agencies into the National Security State, initially created in 1947 when Congress passed the National Security Act. In addition to the NSC, this legislation created the CIA and institutionalized under the rubric of “national security” the justification for new weapons systems, huge military expenditures, and military interventions in the third world.

“National Security State institutions like the NSC and CIA are also dangerous because they greatly expand the power of the executive branch and thereby threaten the constitutional system of checks and balances,” writes Jack Nelson-Pallmeyer in his book, *Brave New World Order*.

The Second Amendment was written for TWO specific reasons:

1. To protect one’s individual hearth and home.
2. To protect ALL from the nefarious hands of BIG Government.

“Conspiracy theorist” Thomas Jefferson makes this abundantly clear:

And what country can preserve its liberties if its rulers are not warned from time to time that this people preserve the spirit of resistance? Let them take arms.

“Conspiracy theorist”, revolutionary war veteran and ratifier of the Constitution (the “non-living” one) Zechariah Johnston apparently agrees:

The people are not to be disarmed of their weapons. They are left in full possession of them. This is a principle which secures religious liberty most firmly.

Quotes from David Barton, “The Second Amendment: Preserving the Inalienable Rights of Individual Self-Protection”, (Aledo, Texas: WallBuilder Press, 2000) p. 26.

Of course our new “Messiah” would beg to differ as did Margaret Sanger worshipper Adolf Hitler. Hmm. That Sanger name *again*?

**“Pork” Bailout Could Ban Guns for Millions of Americans** (infowars.com, 2/15/09)

The Obama administration is putting a lot of pressure on Congress to slam through the most recent \$800+ billion bailout package before anyone has an opportunity to read it.

But now that some of the details are finally starting to leak out of Washington, Gun Owners — and a lot of other analysts — are beginning to look at the fine print. And some of it is particularly scary.

It should be scary enough that a government bureaucrat is directed by statute to try to influence your doctor's decisions with respect to your medical care.

But of even greater concern to gun owners is the fact that a government-coordinated database (which government can freely access) will now contain all records of government-provided and private psychiatric treatment — including, in particular, the drugs which were prescribed.

Here is Obama “advisor” and Council on Foreign Relations President commenting on something called “State sovereignty”. Of course to “conservative” shills like Rush Limbaugh and side kick this all “conspiracy kook” stuff as they serve the “right” side of the aforementioned Antony Sutton's statist mantra of the elites:

**State sovereignty must be altered in globalized era: In the age of globalization, states should give up some sovereignty to world bodies in order to protect their own interests** (taipeitimes.com, 2/21/06)

Moreover, states must be prepared to cede some sovereignty to world bodies if the international system is to function.

Some governments are prepared to give up some elements of sovereignty to address the threat of global climate change.

Who will usher in “The New World Order” or Freemason historian/FDR “advisor” Manly Hall's “World Commonwealth”. Manly Hall referred to THEM as “cosmic messengers” and this “conspiracy theorist” already produced “Kosmos” magazine from the UN-dead (see bottom of new age page)...

#### 4. **THEM?**

**Mystery Fireball Streaks Across Texas Sky** (foxnews.com, 2/16/09)

"We don't know what it was," said Federal Aviation Administration spokesman Roland Herwig.

The Williamson County Sheriff's Office used a helicopter to search after callers said they thought they saw a plane crashing, a spokesman said.

The U.S. Strategic Command said there was no connection to the sightings over Texas and Tuesday's collision of satellites from the U.S. and Russia.

"There is no correlation between the debris from that collision and those reports of re-entry," said Maj. Regina Winchester, with STRATCOM.
