

As things wind down here for the “The Late Great USA” and in fact “The Late Great Planet Earth” and at the risk of beating a dead horse here are four stories that indicate this whole effort is much more than just “conspiracy theory”. As time is a limited resource this “conspiracy theorist” will concentrate on what’s really going on in **Mystery, Babylon, USA** (see link and **related links page** which should be completed by May or June 2009). Events seem to be merging with the **related links page** listed there; maybe there’s a reason for that. In other words, a news story will have to be *really* big to break over the next few months.

With that let’s begin. In “The THEorY of LIVEvolution” something called the Law of the Sea Treaty (LOST) was briefly discussed. Please don’t mistake the brevity for its lack of impact; it’s just that things are unraveling so fast it’s hard to keep track of all this “conspiracy theory” any more. This is from FOX sNEWS; remember this is the “conservative” side of the fake left/right paradigm previously discussed (see 2/16/09 column) that fools the “imbecile majority” into believing its voice is being heard. The most likely scenario is that “they” don’t even care anymore who knows about the “conspiracy” to overtake the world. For example on the relevant news stories for 2/2/09 see Rockefeller lap dog and Obama “advisor” Henry Kissinger shooting his mouth off about how the current economic ‘crisis’ is a good opportunity for a new world order. Here is the text right off FOX sNEWS:

LOST and Found: Senate Moves Toward Ratification of U.N.'s 'Law of the Sea Treaty' (Foxnews.com, 3/12/00)

The Senate is gearing up to ratify a decades-old U.N. treaty that critics warn could create a massive U.N. bureaucracy that could even claim powers over American waterways.

The Senate is gearing up to ratify a Nixon-era U.N. treaty meant to create universal laws to govern the seas -- a treaty critics say will create a massive U.N. bureaucracy that could even claim powers over American waterways.

LOST -- the U.N. Convention on the Law of the Sea, also called the Law of the Sea Treaty -- regulates all things oceanic, from fishing rights, navigation lanes and environmental concerns to what lies beneath: the seabed's oil and mineral wealth that companies hope to explore and exploit in coming years.

"You have to pay royalties on the value of anything you extract (from the deep seabed), those royalties to be distributed as the new bureaucracy sees fit, primarily to landlocked countries and underdeveloped countries," said Steven Groves, a fellow at the conservative Heritage Foundation. American money would also go to fund the International Seabed Authority, which Groves warned "would have the potential to become the most massive U.N. bureaucracy on the planet."

Now LOST will regulate anything that drains into the oceans. My friends this involves the entire *land* mass of the United States. Every piece of land drains into some waterway that eventually drains into either the Atlantic or Pacific Ocean or the Gulf of Mexico. So

how much reviews will this get by “our” illustrious Congress? About as much as the so-called stimulus:

Its complexity, however, still beguiles even experts, who say it is unlikely to be understood when brought to a vote in the Senate.

"The thing is about 150 pages long -- meaning there are exactly zero people in the Senate who have read it," said Groves.

That's encouraging. Let's see here. These next two point to the pure, treasonous, nefarious evil that is Barak Obama and his handlers (and I'll say it yet again: WATCH OUT FOR THIS GUY):

Obama, the Cloward-Piven Strategy, and the New World Order
(infowars.com, 3/1/09)

On March 9, [Brannon Howse](#) of Worldview Radio interviewed author James Simpson. Entitled “Barack Obama is Destroying Our Economy on Purpose,” Howse’s interview of Simpson concentrated on Columbia University professors Richard Andrew Cloward and Frances Fox Piven who wrote an article in 1966 for The Nation magazine. “The article was published on May 2, 1966 and laid out what is now known as the ‘Cloward-Piven Strategy’. The plan calls for the destruction of capitalism in America by swelling the welfare rolls to the point of collapsing our economy and then implementing socialism by nationalizing many private institutions,” explains a synopsis on the Worldview Radio website. “Cloward and Piven studied Saul Alinsky just like Hillary Clinton and President Obama.”

Hmmm. As documented in “The THEorY of LIVEvolution” the “Great” Society is nothing more than enslaving the American black into the Federal Government’s Orwellian welfare/slave state, a kind of real life test case if you will. Now if the blacks are the test case who are the real life recipients? (Hint: Look in the mirror).

It is a mistake to believe the Cloward-Piven Strategy is scheme cooked up by academic Marxists of “New Left” bent dedicated to the destruction of capitalism in the name of some sort of vaguely defined humanitarianism. In fact, “the destruction of capitalism in America by swelling the welfare rolls to the point of collapsing our economy and then implementing socialism by nationalizing many private institutions” is a meticulous plan on the part of the global elite to consolidate power and destroy all opposition.

It has nothing to do with liberating the proletariat but rather subjecting them to banker engineered “world-socialism, scientifically planned and directed” and devised to transform the planet into a banker dominated high-tech prison gulag.

Here's one from the "conspiracy theorists" in Australia:

Nobel-Prize winner backs world currency (theaustralian.news.com.au, 3/11/09)

KAZAKH President Nursultan Nazarbayev has won backing for his plan for a single world currency from an intellectual architect of the euro currency, Nobel-prize winner Professor Robert Mundell.

Mr Nazarbayev and Prof Mundell urged the Group of 20 leading developed and developing economies to form a working group on the proposal at their summit on the global economic crisis in London on April 2.

"We should deliver our thoughts and the thoughts of this conference to the leaders of those countries," Mr Nazarbayev said, referring to the G8 and G20 nations.

Now what really struck me was this article's last sentence:

Mr. Nazarbayev's coining of "acemetal" combines the Greek word "acme", meaning peak or best and "capital".

This is a just a guess but I see the word "alchemy". Alchemy, the forerunner to modern chemistry, is the esoteric (related to the occult) practice of transmuting metals. It has all kinds of spiritual connotations but in a nutshell, no pun intended, it's the pursuit of an Illuminated soul or "immaterial gold" or the idea that there's divinity latent in man. Of course most of humanity is part of the "imbecile majority" or too "profane" to ever figure out how to develop their "inner gold" with their latent "spark" and therefore become expendable. They become even more expendable since they are now "useless eaters" who are harming the "Mother Earth goddess". If this sounds like the radical environmental movement and the Georgia Guidestones (see links on the bottom of the new age page) it should. This idea that the eco wackos are nothing more than a bunch of "New" Age loons, crackpots, freaks and weirdoes who put "Mother Earth" above human life was thoroughly documented in "The THEorY of LIVEvolution". Of course the mega capitalist Rockefeller family is in the middle of anything that involves genocide (the eco wackos, the UN-dead, AIDS as documented in last week's column, Adolf Hitler, etc.). But just to be sure here is yet another article among many about the true nature, no pun intended, of the radical environmental movement:

Climate Change Conference: Genocidal Global Warming Policies will Kill Hundreds of Millions (Executive Intelligence Review on larouchepub.com, 3/10/09)

March 10, 2009 (EIRNS)—Yesterday, Dr. Arthur Robinson, Director of the Oregon Institute of Science and Medicine and the originator of the petition against Al Gore's global warming hoax which as of now 32,000 scientists have signed, told the 2nd International Conference on Climate Change, that the people like Al Gore who promote global warming alarmism are committing genocide by the withdrawal of technology from the developing world. Speaking at the conference hosted by the Heartland Institute in New York City, he said, "there is a current

example of genocide by the removal of technology, and that is the ban on DDT, and that has resulted in the deaths of 30 to 40 million people and has left half a billion infected with malaria."

Vaclav Klaus, President of the Czech Republic, gave a keynote address to conference, in which he accused the European Union governments of being global warming "alarmists," while hiding their actual intentions. "They probably do not want to reveal their true plans and ambitions—to stop economic development and return mankind several centuries back," said Klaus. "It is evident that the climate change debate has not made any detectable progress. It reminds me of the frustration people like me felt in the communist era."

Like Klaus, Lindzen pointed to the evil political intentions: "Once it is understood, the silliness of the whole issue becomes evident—though those who are committed to warming alarm as the vehicle for a postmodern coup d'etat will obviously try to obfuscate matters."

Monckton said that there is no climate crisis, and told the conference that the environmental movement has gone too far. "The environmental movement has to be outlawed, because their policies have murdered 40 million people, mainly children, with the ban on DDT." He added, "They have caused mass starvation and food riots with their nonsensical drive for bio-fuels. The forces of darkness in the environmental movement want create a new dark age in which humanity is pushed back to the Stone Age and without the right to light a fire."

So there it is in a nutshell, no pun intended. The genocidal maniacs now run the asylum. BEWARE THE ENVIRONMENTAL MOVEMENT, BEWARE THE ENVIRONMENTAL MOVEMENT (see links on the bottom of the new age page). Is this all still silly "conspiracy theory"? We have a President, who still hasn't told us where he was even born, who claims to be "Christian" yet voted *AGAINST* something called the "Born Alive Infant Abortion Protection Act".

And whose name pops up all over the genocidal environmental movement, the so-called "Ascended Masters"/UFO weirdoes AND the art/science/philosophy of Alchemy? The "father" of the Order of the Golden Dawn (among other "New" Age crackpots) and my candidate for the Beast of Revelation, none other than Christian Rozenkrus or RC Christian of Georgia Guidestones fame. And to what song did eco wacko guru Al Gore enter stage left at the Democratic National Convention last August? That would be "The Age of Aquarius". And what does the O from Obama's symbol really say (see 3/2/09 column)? Right, a rising sun suggesting the Dawn of a New Age. And one of the names the "Ascended Master" version of RC Christian goes by is "hierarch of the Aquarian Age". And to whom who does Saul Alinsky, Communist mentor of Barak Obama dedicate his book "Rules for Radicals"? That would be "the very first radical...Lucifer". That's Lucifer one in the same with Satan and the Beast of Revelation.

God, the real One, help us all.
