

Guess who said the following (answers at the bottom):

“Progressive” “negro project” founder Margaret Sanger

Adolf Hitler

Charles Darwin

Thomas Malthus

“Progressive” eugenicist Henry Osborn

With Savages, the weak in body or mind or soon eliminated; and those that survive exhibit a vigorous state of health...We civilized men, on the other hand, do our utmost to check the process of elimination; we build asylums for the imbecile, the maimed, the sick...and our medical men exert their utmost skill to save the life of every one to the last moment.. Thus the weak members of civilized societies propagate their kind...One who has attended to the breeding of domestic animals will not doubt that this must be highly injurious to the race of man...excepting in the case of man hardly anyone is so ignorant as to allow his worst animals to breed. 1.

Furthermore, Darwin never seriously considered the origin of life or speculated on its final destiny. Even so, his theory of evolution opened up new areas for scientific inquiry eg psychology and ecology. His racism and sexism must now be placed within the sociocultural context of the nineteenth century. 2.

The savage and the dog have often found water at a low level, and the coincidence under such circumstances has become associated in their minds. A cultivated man would perhaps make some general proposition on the subject; from all we know of savages it is extremely doubtful whether they would ever do so. 3.

Our naturalist will have been in some degree influenced by the enormous range of man, which is a great anomaly in the class of mammals if mankind be viewed as a single species...On the other side of the question, if our supposed naturalist were to inquire whether the forms of man keep distinct like ordinary species, when mingled together in large numbers in the same country he would immediately discover that this was by no means the case. In Brazil he would behold an immense mongrel population of Negroes and Portuguese; in Chile and other parts of S. America...whether man should be classed as a single species or race or as 2..as 3...etc. This diversity of judgment does not prove that the races ought not to be ranked as species, but it shows that they graduate into each other... 4.

Every cross breeding between two breeds which are not quite equal results in a product which holds an immediate place between the levels of two parents...The stronger must dominate and not mate with the weaker...Only the born weakling can look upon this principle as cruel, and if he does so it is merely because he is of feebler nature and narrower mind; for if such a law did not direct the process of evolution then the higher development of organic life would not be conceivable at all. 5.

I must premise, that I have nothing to do with the origin of the primary mental powers, any more than I have with that of life itself. We are concerned only with the diversities of instinct and of other mental qualities of animals within the same class. 6.

The negroid stock is even more ancient than the Caucasian and Mongolian, as may be proved by examination of the brain, of the hair, of the other bodily characters...the instincts, the intelligence. The standard of intelligence of the average adult Negro is similar to that of the 11 year old youth of the species Homo Sapiens. 7.

All children born, beyond what would be required to keep up the population to the desired level, must necessarily perish, unless room is made for them by the deaths of grown persons. We should facilitate, instead of foolishly and vainly endeavoring to impede, the operations of nature in producing this mortality". 8.

Next 5 are together:

*The most merciful thing that a family does to one of its infants is to kill it*

*Eugenic sterilization is an urgent need. We must prevent multiplication of this bad stock*

*Eugenics is...the most adequate and thorough avenue to the solution of racial, political and social problems.*

*Our failure to segregate morons who are increasing and multiplying...a dead weight of human waste...an ever increasing, unceasingly spawning class of human beings who never should have been born at all*

*The campaign for birth control is not merely of eugenic value, but is practically identical with the final aims of eugenics 9.*

Our great problem is not merely to perfect machinery, to produce ships...but to remodel the race so that it may equal the amazing progress we see now making in the externals of life 10.

International: This department aims to cooperate with similar organizations in other countries to study Birth Control in its to the world's population problem, food supplies, national and regional conflicts, and to urge upon all international bodies organized to promote world peace, the consideration of these aspects of international amity 11.

Bonus:

Whose ranking system is this, Hitler, Sanger, Darwin, Osborn?

Nordic (Aryan)>Germanic>Mediterranean>Slavic>Oriental>Black African>Jewish 12.

## Footnotes/Answers

1. Charles Darwin "Origin of Species: The Preservation of the Favored Races in the Struggle for Survival" p 29
2. Charles Darwin, "The Descent of Man" (Xxii, Introduction by H James Birx, PhD, Harvard)
3. Ibid, p 79
4. Ibid, p180
5. Adolf Hitler "Mein Kempf" Chapter 11
6. Darwin, "**Origin** of Species" p 160
7. Henry F. Osborn, President of the American Museum of Natural History taken from "The Long War Against God" p62 (Osborn was also a founding member of the American Eugenics Society, see ["The UN-American Genocidal Complex"](#)).
8. Thomas Malthus, "An Essay on the Principle of Population", 1798
9. Margaret Sanger taken from Theodore Shoebat "In Satan's Footsteps" p 157-158
10. Margaret Sanger, "The Pivot of Civilization", p95
11. Ibid, p 99
12. Hitler's Ranking: (from the Introduction p38 "Origin of Species" by Ray Comfort)
