

This book is dedicated to two groups. The first is comprised of those who have given their lives in the protection of this once Godly nation against all enemies without. This encompasses General and President George Washington, the greatest American that ever lived, to the faceless private who never made it home from Iwo Jima. On the flip side, it is dedicated to “Them” and their predecessors. Today “They” are the Rockefeller-Kissinger-Brzezinski-Soros led UN-American Genocidal Complex and their enigmatic sun of god “President” Barack Obama who have taken it from within thereby negating the Divine and selfless efforts of the first group. Congratulations to you worshippers of Baal, modern day money-changers, Communist sellouts and “cosmic messengers” on the accomplishment of your “Great” Plan for your “Great” Society.

You’ve won.

And the best of luck with “Mother Russia”, Red China and “the religion of peace” not to mention your upcoming trial before the “Supreme Judge of the world”; you’re going to need it
