

Voters Opt For Golden Chain Slavery

by Chris Alexander

In our political landscape the choices are only two, but they will produce a specific truth and a specific consequence relating to a specific form of justice. It is imperative that the right choice prevail as there are a multitude of options that accompany each choice. The voters' choice in this election will also bring about many things. Depending on our choice it can be liberating, or devastating. Choice demands a measure of sacrifice in each person's life in achieving the right consequence for true justice. Are the voters willing to sacrifice personal freedom for the choice they made? Was the right decision made that will support Godly Principles?

When a choice is made then one needs to qualify it and determine the lasting effect. How long will the consequence of that choice be in effect? Will it be for one year, ten years, or for one's life? Is that choice one that reflects truth based on reality, or a radical ideology? If the proper choice is made for the right reasons using a long term consequential outlook, then a nation can avoid the path of destruction.

Obama wants the American people to accept his way of thinking. What is Obama's thinking process? His process is realized in various speeches he gave that shows his intent. On January 18, 2010, Obama appeared on Nile TV with Egyptian Foreign Minister Ahmed Abul

Gheit. He stated on the Round Table Show that he had a one on one meeting with Obama who swore to him that he was a Muslim, the son of a Muslim father and step-son of Muslim step-father, that his half-brothers in Kenya were Muslim, and that he was loyal to the Muslim agenda. What is the Muslim agenda? The agenda clearly states that all non-Muslims will convert, or they will die! The agenda doesn't allow compassion, tolerance, or a free expression of faith through Jesus Christ. The agenda is set on the destruction of Christianity, America, & Israel!

Another example is in Obama's book, Audacity Of Hope, page 261, he stated that when the political winds shift & things get ugly he will side with the Muslims. This statement was supported by Israel Today Magazine.

Other examples of his loyalty to his Muslim ties were supported with his speech at the Grand Hall of Cairo University on June 4, 2009. Obama said, "I have known Islam on three continents before coming to the region where it was first revealed. This is the experience that guides my convictions." Convictions are always part of an agenda! The full personal agenda of Obama can be read in the book, Two Truths Two Justices, that ties in with Truth The Political Answer Dangerous Times Ahead; both books available at Amazon.com, Barnes & Noble.com, Kindle, Books-A-Million, AbeBooks.com, & 25,000 bookstores across the nation.

If that choice is to accept Obama's way of thinking, then a person would accept the idea of spreading the wealth. They would also have to agree with Obama in principle that the government should be in charge of everything for the betterment of the people. This will create a

Golden Chain of Slavery for Obama's agenda!

Obama has made a claim that he is a Christian in spite of all the other evidence. If he were a Christian, why would he cancel The Christian Day Of Prayer & replace it with The Muslim Day Of Prayer? This was done on September 25, 2009. Why did he formally invite Ingrid Mattson to give the prayer at his inauguration of 2008? She was the President of ISNA, (Islamic Society of North America) since 2006, up to the time she was replaced by Mohammed Magid. ISNA was found to be a supporter of terrorist organizations through funding of various groups.

If one accepts Obama's way of thinking, then they are in agreement with Obama regarding abortion, ObamaCare, Cap & Trade, replacing The Christian Day of Prayer for The Muslim Day of Prayer, giving the Russians our plans on the MP3 Missiles, abandoning programs to detect terrorists boarding commercial airlines (CAPPS Program), spending money on programs that don't work (\$787 Billion Stimulus Bill), creating more poverty in our country (15% more since Obama took office), increase of Welfare Program 71%, & other decisions that violate our Constitution.

The next thing to come about after the dissolving of 401K's & IRA's will probably be a Crime of Opinion! Anyone that disagrees with Obama with face punitive charges in this author's opinion, a direct abridgement of the first amendment! He will state that an opinion that is critical of him will be classified as Treason! If that sounds far fetched, look at what he has

done to date.

Those that voted for Obama agree with everything he has done and that makes them slaves to his agenda. These voters will soon realize that no matter how attractive the chain, it's still slavery, even if the chains are Golden!

Obama could be considered a slave as he is entrenched in loyalty to the Golden Chain. What is the Golden Chain? The Golden Chain is a group that was founded in Herndon, Va.; composed of Saudi billionaires that support Al-Qaeda and many other terrorist related groups. King Abdullah bin Abdullah Azziz Al Saud is said to support this group.

Saudi Prince Al-Walid Bin Talal is another that is actively involved in the Golden Chain. The Saudi Prince donates quite a bit of money to CAIR in our country.

Terrorists such as Yaqub Mirza and Omar Ashraf contributed to many foundations, one of which is the SAAR Foundation. Safa Trust is an umbrella group for the SAAR network, another entity that Mirza controls, along with Ashraf. SAAR gets its acronym from Sulaiman Abdul Aziz Al-Rajhi, a Saudi banker and billionaire who largely funded the group. He is said to be close to the Saudi ruling family and is a part of the Golden Chain, which is a list of early Al-Qaeda supporters. Sulaiman Abdul Aziz Al-Rajhi belongs to the Golden Chain that finances Al-Qaeda and was proven a terrorist when the SAAR Foundation was raided in 2002. This confirmed terrorists family owns a bank that is highly suspect in Saudi Arabia.

Others that are part of the Golden Chain are Ibrahim Afandi aka Ibrahim Muhammad Afandi; affiliated with ibn foundation and a board member of the International Islamic Relief Organization. Ibrahim Afandi is a member of the Golden Chain that financially and physically supports al-Qaeda along with many others such as, Adel Batterjee, who was declared a terrorist in 2004. Batterjee is the founder of BIF, Benevolent International Foundation. On, or about the same time Osama Bin Laden's brother in law, Mohammed Jamal Khalifa, founded the Benevolence International Corporation. In 1993 they decided to merge and they became the Benevolent International Foundation when they moved to Chicago.

The golden chains of slavery extends far into many areas around the world enslaving more and more people with the lure of money, and not just a little, but a lot! Voluntarily participation of slavery compromises the Soul of the individual because with slavery there is no freedom. This is a direct violation of God's Principles!

The people who voted for Obama opted for Golden Chain Slavery. For you that didn't vote that way, when you are faced with the prospect of slavery, regardless of the lure that it uses, will you stand on God's Principles, or be left behind?
