

2. The Jewish Pharisees and the Kabala

It's funny how the "New" Agers want to refer to Jesus Christ, the real One, as some kind of human, fallible "Master" who was alive but wasn't all that He's cracked up to be. Essentially they admit that the historical figure Jesus Christ existed but He has been given a makeover. They do this by selectively taking passages from the Bible and using them as they see fit. Or in some cases stories are added to the Bible to make it look like He traveled to southern France where He married Mary Magdalene and started some kind of royal bloodline a la the Da Vinci Code. (The arguments against this as well as establishing the Bible as the best history Book in well history are documented in Section 1 of "The THEorY of LIVEvolution".)

There are endless arguments against this constant onslaught of idiocy and ignorance but the quickest and most decisive that this "conspiracy theorist" has found is with the Jewish high priests known as the 'Pharisees' and their allies including the money-changers at the Temple and their recording secretaries known as the scribes. Keep in mind that Jesus Christ, the real One, forgave all kinds of people: whores, thieves, murderers (i.e., "publicans and sinners"). Everyone; except for these guys. When He was within the week of His crucifixion and upon His initial visit to Solomon's Temple in Jerusalem John describes the less than accommodating actions of the infinite merciful God in the flesh towards the money-changers:

And the Jews' passover was at hand, and Jesus went up to Jerusalem. 14 And found in the temple those that sold oxen and sheep and doves, and the changers of money sitting: 15 And when he had made a scourge of small cords, he drove them all out of the temple, and the sheep, and the oxen; and poured out the changers' money, and overthrew the tables; 16 And said unto them that sold doves, Take these things hence; make not my Father's house an house of merchandise. (Verses 2:13-16)

And here is His description of these guys and their ways as recorded by Matthew 23:

Woe unto you, scribes and Pharisees, hypocrites! for ye pay tithe of mint and anise and cummin, and have omitted the weightier matters of the law, judgment, mercy, and faith: these ought ye to have done, and not to leave the other undone. 24 Ye blind guides, which strain at a gnat, and swallow a camel. 25 Woe unto you, scribes and Pharisees, hypocrites! for ye make clean the outside of the cup and of the platter, but within they are full of extortion and excess. 26 Thou blind Pharisee, cleanse first that which is within the cup and platter, that the outside of them may be clean also. 27 Woe unto you, scribes and Pharisees, hypocrites! for ye are like unto whited sepulchres, which indeed appear beautiful outward, but are within full of dead men's bones, and of all uncleanness. 28 Even so ye also outwardly appear righteous unto men, but within ye are full of hypocrisy and iniquity. 29 Woe unto you, scribes and Pharisees, hypocrites! because ye build the tombs of the prophets, and garnish the sepulchres of the righteous, 30 And say, If we had been in the days of our fathers, we would not have been partakers with

them in the blood of the prophets. 31 Wherefore ye be witnesses unto yourselves, that ye are the children of them which killed the prophets. 32 Fill ye up then the measure of your fathers. 33 Ye serpents, ye generation of vipers, how can ye escape the damnation of hell? (Verses 23-33)

This isn't really good. But one can only ask why? Why would Jesus Christ, the *Prince of Peace* and God of *infinite mercy* chase these guys with whips and basically damn them to hell? The answer, I believe, is something called the Kabala (sometimes spelled Cabala or Qabalah). Quite simply it is the hand me down of the Tree of Knowledge of Good and Evil that God, the real One, specifically told Adam and Eve not to eat from.

Let's review very quickly. When the serpent (Lucifer the ILLUMINATED Angel of light) tricked Adam and Eve into "eating" from the tree physical food or anything 'physical' (i.e., Newtonian mass) did not exist as we today understand it. What they tried to do was to get an even better deal by acquiring "knowledge" (or Gnosticism) of God, the Father, the real One. So when Genesis said 'eat' it meant trying to satisfy their newly found greed *spiritually* to get an even better deal than the one they had all courtesy the serpent. They did this by trying to understand the creation of the universe through "The Tree of Knowledge of Good and Evil" or just "The Tree of Knowledge". Today this Tree contains the leaves of "the universal language", mathematics. In the previous section we discussed Greek philosopher Pythagoras as being at the foundation of modern mathematics and scientific knowledge. But the Cabala preceded his "knowledge" all the way back to the Garden of Eden itself, i.e. the beginning of "time".

We return to "The Mouthpiece of Masonry" who quotes Confederate General, KKK co-founder and pre-eminent "New" Ager Albert Pike:

Albert Pike, quoting from *Transcendental Magic*, thus sums up the importance of Qabbalism as a key to Masonic esotericism: "One is filled with admiration on penetrating into the sanctuary of the Kabalah, at seeing a doctrine so logical, so simple and at the same time so absolute. The necessary union of ideas and signs, the consecration of the most fundamental realities by the primitive characters; the Trinity of Words, Letters and Numbers; a philosophy as simple as the alphabet, profound and infinite as the Word; theorems more complete and luminous than those of Pythagoras; a theology summed up by counting on one's fingers; an Infinite which can be held in the hollow of an infant's hand; ten ciphers and twenty two letters, a triangle, a square, and a circle, - these are all elements of the Kabalah. These are the elementary principles of the written Word, reflection of that spoken Word that created the world!" (Morals and Dogma) (1)

So who is privy to all this great "knowledge"? Only the "Enlightened" or the ILLUMINATED I'm afraid. Or those whose "divine spark" hasn't gone out like say most of the "profane" and the "mundane" in the "imbecile majority". So even in ancient times the "imbecile majority" is screwed not unlike today's communism umm Progressivism. But let's get the low down from the "Mouthpiece of Masonry" on the "Jewish mystics" that were allowed to have this "knowledge":

Hebrew theology was divided into three distinct parts. The first was the law, the second was the soul of the law, and the third was the soul of the soul of the law...the Qabbalah, the soul of the soul of the law, was cunningly concealed, and only the highest initiates among the Jews were instructed in its secret principles.

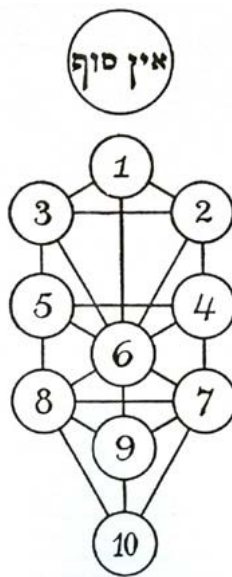

.....dispatched from heaven to instruct Adam in the mysteries of the Qabbalah. Different angels were employed to initiate the succeeding patriarchs...

Christian D. Ginsburg has written: "From Adam it passed over to Noah, and then to Abraham, the friend of God, who emigrated with it to Egypt, where the patriarch allowed a portion of the mysterious doctrine to ooze out....the other Eastern nations could introduce it into their philosophical systems. Moses, who was learned in all the wisdom of Egypt...received lessons in it from one of the angels. Moses also initiated the seventy elders into the secrets of this doctrine and they again transmitted them from hand to hand. Of all who formed the unbroken line of tradition, David and Solomon were most initiated into the Kabalah". (2)

Okay so the Kabalah is really important; what exactly IS it? Again it's a "Tree". For a little background here, once again, is "The Mouthpiece of Masonry":

The monad (a) signifies the all-including ONE. The Pythagoreans called the monad the "noble number, Sire of Gods and men". (b) the sum of any combination of numbers considered as a whole. Thus, the universe is considered as a monad...The monad may also be likened (c) to the seed of a tree which, when it has grown, has many branches (the numbers). In other words, the numbers are to the monad what the branches of the tree are to the seed of the tree. (3)

Here's the so-called tree in pictures:

From: Manly Hall, "The Sacred Magic of the Qabbalah".

Now what kind of trouble are these guys, the modern day Pharisees, in? Jesus Christ, the real One, let's them know what He thinks of their Kabbalah 'Trees' in Matthew:

He that is not with me is against me; and he that gathereth not with me scattereth abroad. 31 Wherefore I say unto you, All manner of sin and blasphemy shall be forgiven unto men: but the blasphemy *against* the *Holy* Ghost shall not be forgiven unto men. 32 And whosoever speaketh a word against the Son of man, it shall be forgiven him: but whosoever speaketh against the Holy Ghost, it shall not be forgiven him, neither in this world, neither in the *world* to come. 33 Either make the tree good, and his fruit good; or else make the tree corrupt, and his fruit corrupt: for the tree is known by *his* fruit. (Verses 12:30-33)

In the Bible oftentimes sayings and symbols have different meaning than the literal. He is utilizing the physical picture of a tree to say basically that a tree whose roots and trunk are evil perpetuates and spreads. Of course a good roots and trunk yield the exact opposite. Notice too what He refers to a lack of forgiveness. So the "New" Agers and their inspirations like Helena Blavatsky, Manly Hall and Albert Pike who *consciously* replace the Word of God with a blatantly false Gospel like say that of another "Master" or "Father" like say "Father CRC" can *never* be forgiven. This is interesting since in Revelation He makes the same basic statement to those that accept "the mark of the beast" which means these people have found the beast or Satan himself and have *willfully* given themselves over to him. This concept of non-forgiveness was alluded to before when He asked the predecessors to the "New" Agers and the rest, "how can ye escape the damnation of hell"?

So we have yet another reason to call RC Christian the "anti-Christ" himself.

The Kabbalah describes the "universal language" in its most simplistic terms and it transcends languages. Its simplicity comes by saying that all numbers arithmetically break down to the numbers 1 through 9, the first nine integers. The number 10 is considered perfection or the unification of the male and female. Each of the numbers has special significance and entire volumes have been written on this subject by numerous philosophers and scientists throughout history. Essentially what the Kabbalah does is break every number down to its 1-9 integer 'base'. We'll see this in copious examples not only in this section but others as well. For example we'll see "the number of the beast" 666 adds up to 18 that in turn symbolizes 1+8 or '9'. Well what do you know another direct link to the "Anti-Christ" hidden all this time with these "Jewish mystics". But I digress.

Let's look quickly at each integer 1 through 9.

The number 1.

We've already discussed unity or 1 as the Universal Whole. According to the "New" Agers, when one is achieved we've essentially merged with god who is everywhere and everything. The problem is it's the wrong god. Let's get "The Mouthpiece of Masonry" take on 1. (and look what pops up):

The number one also governs the reason for man's labor here. There is but one motive in all his works; there is one end to all his labors. He must seek to unite his intelligence with that of his Creator, the Ancient of Days. This he does by adjusting his organisms to the body centers of the Macrocosmic Man. The sequential adjustments of internal centers of consciousness with eternal qualities we call evolution. (4)

Well what do you know there's that term "evolution". As I've said *numerous* times the people that understand 'evolution's' real purpose like Manly Hall, Helena Blavatsky (inspiration to Adolf Hitler who took 'evolution' way too seriously), et. al. laugh at the Darwinian dumbos that think 'evolution' has to do with some kind of biological magic whereupon slime or an endless pool of 'hydrogen' or 'stardust' or some kind of random exploding egg gave us everything from the earth's rotation to the human brain. And who helps us "to unite" our "intelligence" with our "Creator, the Ancient of Days" (i.e., the sun god Ra)? Why none other than his 'son'...the embodiment of "Universal Wisdom" Thoth/Hermes/Mercury. And I should mention that in yet another subtle manner we have another concept contrary to Jesus Christ, Son of God, the real One or "anti-Christ". When He died He said "it is finished". In Acts 16:11 we have "Believe on the Lord Jesus and ye shall be saved". There's NO work that can be done to get us into Heaven at this point; His sacrifice was it. And we can see why: when fallible man tries to create his own heaven inhibitions encountered while trying to achieve it go out the window, insatiable greed enters in and we ultimately end up with people like Helena Blavatsky and her fan Adolf Hitler.

The number 2.

The male/female principle is embodied in the number 2; let's get right to our friend Manly Hall:

The one outpouring reflecting itself in matter is called the two. This is the first negative number, for when divided it leaves no remainder. All even numbers are called negative and feminine, and are ruled by the moon. All odd numbers are called positive, because an odd number cannot be divided without leaving the First Cause, One, in the center, They are therefore under the dominion of the First Vibrant Power, the Sun. As One is called the Number of the Father, so Two is the number of the earth – cosmic root substance or the base of form. This is the negative pole of life, called the ancients the Divine Mother in contrast to the vitalizing ray which carries the title of Great Father (5)

And this final passage references, once again, the REAL purpose of "evolution":

Every element in nature has its opposite. In most cases the opposite of a thing is the lack of that thing. Light is an element; darkness is the absence of it. Knowledge is an evolved state; ignorance is the lack of it. Good is a quality; evil is the least degree of good. As we evolve, we form a triangle out of the opposites

by lifting our own center of consciousness above the plane in which lie the two points of our horizon. (6)

The number 3.

As usual I defer to “The Mouthpiece of Masonry”:

The number 3 is symbolized by the triangle, for it is the number of outpourings which radiated from divine Being in the process of creation. Its basic principles are spirit, soul and body. This trinity manifests in the world of form as thought, desire and action, which are the concrete attributes of the threefold divinity. These three principles or forces mold the destiny of all living things...The secret formulae for this accomplishment have come down to us in the secret of the Philosopher’s Stone...The triangle is the simplest of the geometric forms...And such it is in the world; for as father, mother, child, it is the fundamental cornerstone of all expression, generation, and regeneration in Nature...The triple scepters of the Egyptian kings, the triple tiara of the Dalai Lama of Tibet, the three domed roofs of the Temple of Heaven and Peking, all carry the same symbolism...for the triangle is equilateral...With its point upward it represents human aspiration and consciousness rising out of form...with its point downward, it represents the triune powers descending into matter to mold it into a semblance of the trinity of spirit. (7)

So in this passage we see the “Philosophers Stone” which is one of the many forms of the Holy Grail to be discussed later. It also introduces the concept of the union of two upside down triangles as yet another symbolism of perfection. This union of us humans who are capable of “evolution” (there’s that word again) with the “Universal Mind” of the god/man Thoth/Hermes/Mercury will be picked up with “6”.

The number 4.

Let’s get right to it...

Four...represented as cube or stone within which life is imprisoned...the number of matter, because for our particular day of manifestation matter manifests as earth, water, fire and air – action, vitalization, emotion, and thought. Science recognizes four basic principles as the key to all form..these four elements are carbon, hydrogen, nitrogen and oxygen...These four principles, however, form the cross upon which is crucified the spirit of life...In astrology (a science well understood by the Qabalists) four is symbolized as a square..the symbol of a tomb, and this holy sepulcher is the tomb of matter in which our own spiritual nature lies buried. (8)

Four represents Isis, the female whose goddess, but we’ll get to that in a minute. For now notice this concept of a ‘tomb’. This has a direct bearing to today: The Order of Skull and Bones, Yale University. This is what “conspiracy theorist” Anthony Sutton calls

“The Order”. Its members have essentially run this country for almost two hundred years. The room where its weirdo members (which happen to be among the top political, academic, business and media big shots) engage in all kinds of homosexual like sexcapades including coffin associated niceties is known as “The Tomb”. Its original name was “The Brotherhood of Death”. It is discussed at length in Section 2i of “The THEorY of LIVEvolution”, the bottom of the new age page (**322, the Georgia Guidestones and the eco wackos**) and in the **Memoirs** of David Rockefeller on the reviews page.

Let’s move on.

The number 5.

Keep an ILLUMINATED eye on some of the Mouthpiece’s language here:

Five is the hand of the philosopher. It is made up of the four elements plus spirit...Five is called the Christ...it is the spirit of man rising from the tomb of matter...The geometric form of this condition is the pyramid, in which one corner rises from the four corners of the base. When the four elements have become the pedestal upon which the spirit stands as a city on a hill and not with stone walls which close it in, then man has reached the spiritual number of the Five...The tiny spark thus gains the ability to speak to its parent – the great spark...a process symbolized mathematically by the freeing of the One from the Four. (9)

What’s most interesting about this passage is not the direct reference to the pyramid (see the top of the home page or the back of “your” “Federal” “Reserve” note) but this concept of a “tiny spark”. This is directly related to the lovely Helena Blavatsky and her concept of a “divine spark” that is “latent in man” but could never be recognized in many of the “savages” (i.e., sub-Saharan Africans, American blacks, most non-European whites) that populate “Mother Earth”. Of course she served as an inspiration to American eugenics lovely Margret Sanger who in turn inspired the “race hygiene” of Adolf Hitler. So once again we have this nice sounding happy language of the elites but in a “liar and the father of them” kind of way we end up in Auschwitz.

The numbers 3, 4 and 5 together.

In 1878 Dr. Seth Pancoast was the vice president of the American Theosophical Society while well known Helena Blavatsky was president. Here is an excerpt from “The Secret History of the Zohar”:

After describing Pythagoras as “a kabbalist of the highest order,” Pancoast goes on to discuss Pythagoras’ belief that the numbers 10 and 4 were the perfect numbers, as articulated by the ancient philosopher Aetius in the first century AD:

“Ten is the very nature of number. All Greeks and all barbarians alike count up to ten, and having reached ten revert again to the unity. And again, Pythagoras

maintains, the power of number 10 lies in the number 4, the tetrad. This is the reason: if one starts at the unit (1) and adds the successive number up to 4, one will make up the number 10 ($1+2+3+4 = 10$). And if one exceeds the tetrad, one will exceed 10 too...So that the number by the unit resides in the number 10, but potentially in the number 4....The Greek alchemist Pythagoras correctly regarded the Ineffable Name of God – the Tetragrammaton or Four Letter Name – as the key to the mysteries of the Universe and of its creation and preservation....These ten numbers represent the principles of all things”. (10)

Now remember from before in the description of the 3-4-5 triangle that 4 represented the female half of the Ancient Egyptian male/female deity. From Egypt she transposed to numerous goddesses including Gaia or Mother Earth of the Ancient Greeks and Mary, Queen of Heaven of the Roman Catholics. But what's really interesting is this nature connection. The 4 also represents the 4 kingdoms of nature: fire, air, earth and water. It also has copious other meanings and symbolism including the 4 directions and the 4 points of the cross. Now combining nature 4 with the “third eye” represented by her husband/brother Osiris (or the 3) one can gain the “Universal Wisdom” of our friend Thoth/Hermes/Mercury (i.e., RC Christian's original manifestation). We do this when we achieve “knowledge” or “Gnosticism” of the 5th Dimension that man can become God, the real One as he looks down on the 4 kingdoms of nature on ‘Mother Earth’ with the aid of the third All Seeing Eye of Osiris (that happens to be the ILLUMINATED eye on the top of the home page of this web site or the one on back of “your” “Federal” “Reserve” note).

The number 6.

If you add $3+3$ you get 6. In 3 we have the three parts of the human: mind, body and spirit. These three are ‘reflected’ by god or the gods who have the same three elements in their make up. Man is known as the microcosm, god the macrocosm. When these two ‘triangles’ unite we have yet another variation of heaven, the ‘marriage’ of ‘above’ with ‘below’. This concept is represented by the Jewish Star of David as per “the Mouthpiece of Masonry”:

The first consideration in the study of number Six is the well known six-pointed star, or the two interlaced triangles commonly known as the Shield of David. Man consists of two inter-laced triangles – the threefold spiritual body and the threefold form....In the trinity of creation are the three builders of the Temple who sit in council in the secret room. These three form the first triangle, with its point descending into matter. The three master-builders; the three lords of creation; the Brahma, Vishnu and Shiva of India; the Father, Son and Holy Ghost of Christianity; the Ammon, Ra and Osiris of Egypt – each of these groups represents the divine triangle...Six is...the union of spirit and matter...The figure 6 is a line descending into a circle. The coil with the line descending is symbolic of the serpent's coil, which descends 9 and ascends in 6. Therefore, in the case Six, the serpent is returning upward to the power which was its source. (11)

Interestingly enough well known “New” Age author William Henry describes a “serpent’s rope” that will be extended from the heavens to the ILLUMINATED on earth as a way to escape the December 2012 end of the world scenario painted by the Mayans. And of course we can see the “number of the beast” of Revelation, 666. Hold that thought until 9.

Also, “Shield of David” or Star of David is actually a misnomer; it wasn’t the invention of BC era Israeli King David but of the modern Zionist movement started in the late nineteenth century. The Zionist movement is populated by those that want the Jews to return to Israel or so we’re told. The real motive behind them is to use the modern descendants of God’s, the real One’s, Chosen people as cover to occupy the land of Israel. Many Bible Prophecy scholars see Israel’s vast mineral wealth as the ulterior motive for the renewed interest in that country. I see it differently: the “New” Agers and modern Kabalists including the most powerful banking family in history the Jewish (in name only) Rothschilds are really after the city of Jerusalem. This is because this is where they believe the “new” heaven or the “New Jerusalem” will show up as portrayed in the Book of Revelation. These people, who are nothing more than the modern descendants of the Pharisees and money-changers, are in for a rude awakening when they figure out their “Christ” of Hermes/Thoth/Mercury is the exact opposite of Jesus Christ, the real One or “anti-Christ”. Also, remember the Rothschilds were THE suppliers of wealth to original American gang bankers JP Morgan and John D. Rockefeller in the mid nineteenth century. So from this quick overview one can see the string of history from the money changers of Jesus’, the real One’s, day to today, 2009.

One more subject of note is the word Ka-ba-lah. In its roots we have the Ka described by the “New” Agers as some kind of guiding enlightened or ILLUMINATED being for the lowly human and the ba described as the human soul. So when they combine, the ka above and ba below, voila instant heaven...for the white, European, non-Christian, ILLUMINATED, elite, well you get the picture. The “ba” also serves as yet another link to Satan or “The Angel of Light” in the Bible, the god Baal. So combining the “ka” with the “ba” is a marriage to “the Christ” in these peoples’ minds; “anti-Christ” to others.

The number 7.

Now of course if you add 3+4 you end up with 7. And 7 has all kinds of esoteric meanings as the “New” Agers rip off God, the real One. For example there are 7 stairs on the Masonic ‘stairway to heaven’ that represent the stages of their climb to their heaven. There are seven chakras to the human body centered through the spine and up to the brain according to many “New” Agers as the human body serves as a “radio” to contact...something or someone out there (the “Ascended Master” RC Christian is all too willing to “receive” this contact). Here’s Manly Hall’s take:

Seven, the immortal number of Mosaic law, is called the day of completion; for it is said by the ancients that all things were made in seven days...The so-called seven days of creation are not numbered or divided by manmade time. They are steps in the unfolding of the soul...The seven centers within man’s own being and

the seven senses he is slowly evolving through contact with natural conditions show, when completed, the soul has finished its day of wandering...Seven is the number of knowledge...applying a Master's power...Seven is called the number of divine harmony, for it is the music of the spheres. All nature is one great, harmonious melody to those who have harmonized themselves with it...When we harmonize ourselves with the Plan, the mystic melodies of the seven spheres are echoed in our own seven-pillared temple. (12)

What's most interesting about this passage is "Plan". When one goes to Lucis Trust meetings today, 2009, besides hearing from the "Ascended Master" known as Djwhal Khul (more on "him" later) there's all this talk about "the Plan". Recall that Lucis Trust started out as Lucifer's Publishing Company by another Helena Blavatsky disciple Alice Bailey and operates today under the umbrella of the Rockefeller founded UN-dead, Mystery, Babylon, USA. In a nutshell, no pun intended, what "the Plan" entails is the One world Orwellian satanic slave state being implemented as you read this that Jesus Christ, the real One, has to come down and deal with or else "no flesh will be saved" as Jesus Christ, the real One, told the Apostles the week before His crucifixion. And the concept of sound even has huge meaning. "The word was made flesh" is the description of the physical nature of God, the real One, that refers to Jesus Christ, the real One. This delves into the realm of modern quantum physics but what the "New" Agers are saying is that their god of creation spoke from the "waters" or "ether" of eternity and eventually these words took on the physical mass we now know as everything in the *visible* universe. Getting in tune with this "sound" from their god is to experience the infinite ecstasy of "the cosmic waters" of the cosmos (or Kosmos if you're from the UN-dead). The 'practice' for this ecstasy is at the base of the weirdo sexcapades that happen at everything from the "New" Age 'liberal' Wiccan witches and weirdoes heavily into lesbianism to the homosexuality practiced by the 'conservatives' at Yale's Skull and Bones Society and everything in between.

The number 8.

With this number we have the dueling serpents...

Eight is the divine symbol of vitality. It is the symbol of the mystic marriage and of spiritual and physical regeneration...Eight is the strange symbol inscribed by Nature upon the puffed head of the Indian cobra, the symbol of the Logos, and the symbol of creative power. All things in the universe are said to have come into being as a result of the twisting or spinning power of the 8...Those who have not raised the sleeping serpent nor labored for years for the Hermetic Marriage and the Qabbalistic union can never understand the mystery of the number 8 until they, too, have wandered through its twisting coiling form. (13)

A modern day example of this symbol is the serpent representation of the medical field. Everything is infected, no pun intended, with this stuff.

The number 9.

We're finally at the end of this very brief overview of the Kabbalah. Wait till you see what pops out here...

Nine is called the number of humanity, or the symbol of incompleteness...it takes nine months to build the human form...Nine is called by the Ancients the broken wheel. There are four seasons of three months each, spring, summer, autumn and winter. The winter months are the three yet unfinished in evolution; for which cause the Sun Spirit still descends into the earth on the 25th day of December and ascends at Easter, after spending his three days (months) in the tomb...Man is twelve and so symbolized in nearly all of the ancient teachings, and Twelve is Nine plus Three. It is this point that Freemasonry enters the scene, for the three steps of the entered Apprentice, the Fellow-Craftsman and the Master Mason add to the nine months of physical birth the three degrees of spiritual birth, completing the broken wheel and making man the perfect Twelve...Man must wander in the lower worlds until he makes of his Nine a Twelve...Three times three is Nine, and the thirty-degrees of the Ancient Rite are very closely connected with the history of man...As there are thirty-three segments in the human spine, we discover why there are thirty degrees in Freemasonry and why Jesus died in his thirty-third year and ascended to heaven. The human spine is the Jacob's Ladder of the ancients, upon which the angels ascended and descended.

Now listen up as 9 represents the end of the Kabbalah...

To the Qabbalist, the mystery of numbers is unveiled, for 666 – the number of the Beast in Revelation – when its digits are added together make eighteen, and eight and one equal nine; therefore man himself is the Beast. In the same document we understand that 144,000 shall be saved. When the digits of this number are added, the total likewise is nine, which proves that man also is to be saved as a unit or mass. (14)

This number was also derived from the number 18 (i.e., 1+8=9) in the link **322, the Georgia Guidestones and the eco wackos** on the new age page.

And the 18th Degree of Freemasonry is...the Rose Cross Degree that ties right back to our new friend, RC Christian or Thoth/Hermes/Mercury. And what's the other link right above this on the new age page?

Beware the environmental movement, Beware the environmental movement.

Uh oh.

In Hebrew lore the teachings of the Kabbalah were recorded in the Zohar or "The Book of Splendor". One legend even places it in the Ark of the Covenant. In that sense it could definitely be associated with the "Holy Grail" that we'll discuss later. Author and

Kabala expert and co-director of the Kabbalah Centre International Michael Berg documents the trail of the Zohar from the high ranking rabbis and their assistants around the time of Jesus Christ and the Apostles (i.e., the Pharisees and scribes) through the Middle Ages, the Enlightenment to today. He discusses the greatest minds in history including Plato, Pythagoras, Michelangelo, Columbus, Paracelcus, Newton and Thomas Edison. All were very much interested in Jewish mysticism and the Zohar in particular. We've already documented that Helena Blavatsky's Theosophical Society was very studied in the Kabbalah as was her compatriot, KKK co-founder and Confederate General Albert Pike. Additionally, the original Rothschild, Mayer Amschel studied the Kabbalah with none other than the "physical" RC Christian in the mid 1700s. Mayer had five sons who eventually took over the central banks of all the major European powers, including France, England, Germany, and Italy. This becomes all the more disturbing when one realizes that Rothschild money has been corrupting this country from its founding through today and all centers around the central bank what we know today as the "Federal" "Reserve". This fight for economic and in fact literal national survival was documented thoroughly in Section 2a of "The THEorY of LIVEvolution". And Rothschild money interests fed the two main American gang bankers of the nineteenth century, John D. Rockefeller and JP Morgan. And as thoroughly documented throughout Section 2 of "The THEorY of LIVEvolution" and throughout this web site these two families have set about to do everything to debase what is now "The Late Great USA" economically, spiritually and academically. In a nutshell, the consummate mega-industrialists of world history are nothing more than a bunch of "New" Age pagans.

If this all sounds like hocus-pocus "conspiracy theory" I point to the Rothschild family shield (Mayer changed the family name from Bauer to Rothschild literally "Red Shield"):

This thing is rife with “New” Age/Ancient Egyptian paganism. For example, the unicorn and lion are described in a passage from a book entitled “2012 and the Galactic Center: The Return of the Great Mother”:

This view is seen in the stories surrounding the moon tree. This sacred tree is often portrayed as being protected by two winged animals, the lion, which is the symbol of the interplay between dark and light, and the unicorn, which is symbol of unity and immortality. Together, these animals reflect the paradox of diving creation: the dynamic flow and tension between the two opposite poles of existence (the lion), nurtures the central, eternal energy (the unicorn), which in turn is the original source of the duality. In mythological images, the branches of the tree are depicted as either being full of fruit or having been removed, leaving only the trunk visible – depending on the phase of the moon that is represented at the time. Besides the direct description of the images on the Rothschild family shield we can see, once again, the “New” Age concepts of the male/female principle and this obsession with immortality. By the way, it’s also yet another example of the UN-holy marriage between the ILLUMINATI criminal, industrial elite and the “New” Age loony left.

And, interestingly enough, I came across this quote while researching the **Kosmos** link on the Mystery, Babylon USA page. (That link makes the point that Biblical demons and so-called UFOs are in fact one and the same):

References to Melchizedek are numerous in the occult and Masonic literature. In the Stella Matutina, the major successor to the Hermetic Order of the Golden Dawn, there is a special ritual for the invocation of Melchizedek. In her book *Secret Societies and Subversive Movements*, Nesta Webster says that “in the Melchizedek Lodges of Freemasonry, the Rose + Croix degree occupies the most important place.” (16)

So what’s the link? Well I’ve documented thoroughly both here and other links (**322, the Georgia Guidestones and the eco wackos** on the new age page) the Rose Cross degree is the 18th Degree of Freemasonry. And “18” happens to represent three 6s or “the number of the beast” as per “New” Age gurus including Helena Blavatsky, Manly Hall and Albert PiKKKe.

On the Mystery, Babylon, USA page I documented the scarlet and purple colors of the beast of Revelation. It was documented that the “Ascended Master” RC Christian spoke of a purple flame of ILLUMINATION while he was represented by a rose, a red flower symbolic of silence. And we’ve already discussed the symbolism of the Rose Cross. Let’s delve in to this concept once again with assistance from the “Mouthpiece of Masonry”.

FIRE THE UNIVERSAL DIETY

Since the earliest times man has venerated the element of fire above all others...In fact, the element of fire controls to a certain degree both the plant and animal kingdoms, and is the only element which can subjugate the metals...The names of nearly all the great Gods and Saviors have been associated with either the elements of fire, the solar light...Jupiter, Apollo, Hermes, Mithra, Bacchus, Dionysius, Odin, Buddha, Krishna, Zoroaster, Fo-Hi, Iao, Vishnu, Shiva Agni, Balder, Hiram Abiff, Moses, Samson, Jason, Vulcan, Uranus, Allah, Osiris, Ra, Bel, Baal, Nebo, Serapis and King Solomon are some of the numerous deities and supermen whose symbolic attributes are derived from the manifestations of the solar power and whose names indicate their relationship to light and fire. (17)

Well since we're talking about the end of "The Late Great USA" and in fact "The Late Great Planet Earth" let's see what types of things Mayer Rothschild and RC Christian discussed in regards to the Kabalah courtesy the "Mouthpiece of Masonry". This first one reads exactly like Genesis 6 where God, the real One, has decided that the demon/human mutations of Atlantis had gotten way out of control. (Of course from the "New" Age standpoint the Flood was a tragedy.) Here's the Genesis account:

And it came to pass, when men began to multiply on the face of the earth, and daughters were born unto them, 2 That the sons of God saw the daughters of men that they *were* fair; and they took them wives of all which they chose. 3 And the LORD said, My spirit shall not always strive with man, for that he also *is* flesh: yet his days shall be an hundred and twenty years. 4 There were giants in the earth in those days; and also after that, when the sons of God came in unto the daughters of men, and they bare *children* to them, the same *became* mighty men which *were* of old, men of renown. 5 And God saw that the wickedness of man *was* great in the earth, and *that* every imagination of the thoughts of his heart *was* only evil continually. 6 And it repented the LORD that he had made man on the earth, and it grieved him at his heart. 7 And the LORD said, I will destroy man whom I have created from the face of the earth; both man, and beast, and the creeping thing, and the fowls of the air; for it repenteth me that I have made them. (Verses 6:1-7)

This is another example of the "New" Agers criticizing that mean 'ol Yahweh; but as we're seeing He's not dealing with real good "people" here. Here's Manly Hall's (Hiram Abiff is given credit for being the architect of the original Temple of Solomon; recall it also happens to be one of the pseudonyms of our new friend, RC Christian):

In his Secret Societies of all Ages, Charles W. Heckethorne gives an old Qabbalistic legend in connection with the relation of early Masonry to the worship of fire. According to this legend, Hiram Abiff was not a descendant of Adam or Jehovah, as were the Sons of Seth, but was born of a nobler race, for in his blood ran the fire of Samael, one of the Elohim. Further, there are two kinds

of people in the world; those with aspiration and those without. Those without aspiration are the Sons of Seth...

There is another race who are the sons of Sons of Fire, for they are descendants of Sameael, the regent of fire. These flame-born sons are ever fired with ambition and aspiration. They are the builders of cities, the raisers of monuments, the conquerors of worlds, the pioneers, the workers in metals, true sons of the eternal flame. Fiery and tempestuous are their souls and earth to them is a burden. Jehovah does not answer their prayers, for they are sons of another star. Aspiration is the keynote of their nature, and again and again they raise, phoenix like, from the ashes of failure. Some are the Sons of Water – the keepers of flocks; others are the Sons of Fire – the builders of cities. One group is conservative, the other is progressive...In the Scriptures the flameborn ones are called the Sons of God and the water-born are referred to the Daughters of Men...(18)

Of course we can see here the tie back of the Kabbalah to “Legendary” Atlantis. But what’s really relevant to today’s “Late Great USA” is that word “progressive”. This could be a coincidence but think about it: The American Progressives were (are) nothing more than socialists/communists who are typified by two of the biggest sell outs in Presidential history, Woodrow Wilson who was friends with many of the gang bankers and gave us the “Federal” “Reserve” and FDR who overthrew a large portion of the Constitution with his socialist big government New Deal. (See section 2a. of “The THEorY of LIVEvolution” and the **finale** on the relevant news stories page for starters.) And now, of course, we have David Rockefeller’s creation the ultimate “Progressive” Barak Obama. And from where does ALL the wealth behind these people trace? Right, Mayer Amschel Rothschild and the “physical” RC Christian of the mid 1700s.

Let’s get some more information on the “Order of Melchizedek”...

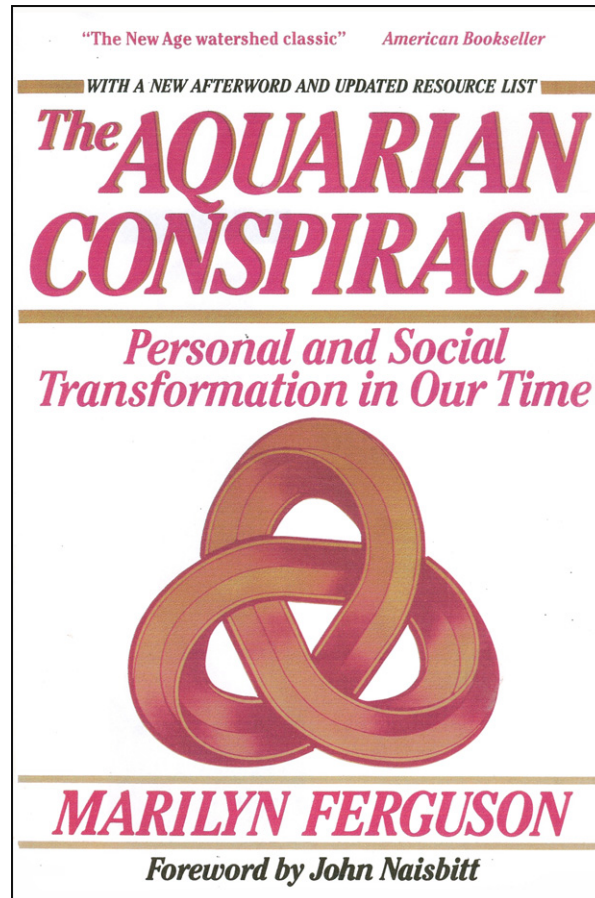

One of the Ancient Mysteries taught that the end of all things is like the beginning plus the experience of the cycle, and some day the human race will give birth to its new bodies of its own nature, as certain primitive animals still do.

The highest of all occult orders which exists only in the inner world may be called the “Order of Melchizedek” although among certain nations it has other names. This order is composed entirely of the graduates of the Mystery Schools who have actually reached the point where they can give birth to their present selves out of their own natures, like the mysterious phoenix bird...

The secret Order of Melchizedek can never appear in the physical world while humanity is constituted according to its present plan. It is the supreme Mystery School, and a few have reached the point where they have blended their divine and human natures so perfectly that they are symbolically two headed.

When considered clairvoyantly, the body of man resembles a great bouquet of flowers, for all over the physical form are petal-like groups of emanating force rays of various shapes and colors...(19)

So in a nutshell, no pun intended, what these people are looking for is a “New” Age that isn’t so new since it’s nothing more than the recreated “Great” Society of Legendary Atlantis. This of course is “The Age of Aquarius”. And just to be sure here’s the front cover of the “New” Age book “The Age of Aquarius” that took the world by storm in the early 1980s:

So we have here, 3 intertwined 6s or in reflection 3 intertwined 9s; both indicative of the “number of the beast”....in the words of Manly Hall and Blavatsky themselves!

And who is ultimately responsible for this? Right, the mysterious, UN-dead Thoth/Hermes/Mercury or one RC Christian, purveyor of the Kabbalah.

If this whole thing isn’t creepy enough let’s talk “Vampires” and “ka” and “ba”.
